

Battery on wheels. Unleash the power of V2X

A conference by DeeldeZon & VER | October 31, 2022 | Podium Bloos, Breda

Invitation

WELCOME

Monday, October 31 2022, DeeldeZon and the VER, Vereniging Elektrische Rijders, will jointly organise the 'Battery On Wheels Conference'. A seminar entirely dedicated to V2X: bi-directional charging of electric vehicles.

By charging the battery of an EV with sustainable energy and discharging it to the (local) grid, the electric car becomes an important link in the energy transition. It could also be a promising solution to rising energy costs and grid investments. What are the experiences, best practices, prospects and policies? How do we cleverly respond to this? What will the market look like? And how do we join forces?

You are cordially invited to Battery On Wheels on October 31st.

sign up

Speakers

Moderator: Vincent Everts

14:00 Opening venue

15:00 Conference opening

Deputy Noord-Brabant Annemarie Spierings

Policy & Results

15:10 Mission & Background DeeldeZon

Johan Janse

15:20 Contribution of V2X

Zenmo | Naud Loomans

AirQon | Tom Rozendal

15:40 DeeldeZon Project Results

Ecopower | Karel Derveaux,

Zuidtrant | Sophie Loots

Fluctis | Arthur Bennink

Pajopower | An Verspecht

Buurauto | Alex van Woerd

aug.e | Stefan Lodeweyckx

16:00 Recommendations

VER | Robbert Monteban

AVERE | Philippe Vangeel

The Future is Now

16:15 SCALE

Elaadnl | Baerte de Brey

16:30 Fiscal & Regulatory matters

PWC | Niels Muller

16:45 V2X technology developments/trends

TU-Delft | Gautham Ram

17:00 Product Developments

PRE/Heliox | Menno Kardolus

17:20 Large scale V2G on SPOT market

Lightyear | Mayk Thewessen

17:30 - 18:30 Break | Info market

V2X Applications

18:30 Panel discussion V2X suppliers | Marina van Helvoort (VER)

18:50 Supplier Pitch V2X suppliers

Airqon, Alfen, Venema, Wallbox, V2G Liberty and more to come

19:30 Panel discussion end-users | Marisca Zweistra (Elaadnl)

Maarten van Biezen, Peter Cieremans and more to come

20:00 -21:00 Wrap-up
